# LS6425

**Cordless Answering System** | with Caller ID / Call Waiting\*

## Key Features

### Voice Announce® Caller ID

Audibly announces the name and number of the caller on all of the handsets and base unit. No need to find the handset to see who is calling. Makes screening calls that much easier.

### Push-to-Talk Intercom

Use as a multiple-handset walkie-talkie system to instantly communicate with any or all of the handsets. No need to shout throughout the house anymore.

### HD Audio

The frequency band has been extended, allowing for the signal to be reproduced and tuned for a fuller and clearer sound.

## Additional Features

- DECT 6.0 Digital technology
- Expandable system up to a total of 12 cordless handsets and 2 cordless headsets (uses LS6405 accessory handset and IS6100 headset)
- Digital answering system
- Caller ID / Call Waiting—stores 50 calls
- Handset speakerphone
- Push-to-Talk intercom
- Voice Announce Caller ID
- HD Audio
- 50 name and number phonebook directory

- Zoom the camera from the parent unit
- Two-way communication between the two units (talk-back feature)
- 6-level sound indicator
- Vibration sound alert in parent unit

Designed to fit your home. And your life.®

\* **Caller ID with Call Waiting** displays a caller's name, number, time and date, even while on another call. This feature requires the user to subscribe to Caller ID with Call Waiting, a combined service, available through your telephone service provider. Subscribers receiving Caller ID and Call Waiting as separate services must subscribe to Caller ID with Call Waiting as a single, combined service. Such services may not be available in all areas, may be called different names by different local telephone companies, and a fee may be associated with these services. To ensure optimal utilization of this feature, both the user's telephone and the telephone of the calling party must be in areas where Caller ID with Call Waiting services are available, and the local telephone company must be using compatible equipment as well.

\*\* **Voicemail** feature requires a subscription from your telephone service provider.

\*\*\* **Recording time** depends on individual message characteristics.
